

The diagram shows a rectangular tube with a covercle. The covercle is a thin, light brown layer on top and bottom. The tube is outlined in red. A dashed pink line is at the top and bottom. A green dashed line is inside the tube, and a solid green line is also inside, slightly offset from the dashed one. The word 'COVERCLE' is written in grey text in the top section, and 'TUBE' is written in grey text in the bottom section.
