

the 1990s, the number of people who have been employed in the public sector has increased in all countries. The increase in public sector employment has been particularly rapid in the United Kingdom, where the public sector has grown from 12.5% of the total workforce in 1980 to 20.5% in 1995. This increase has been driven by a number of factors, including the expansion of the welfare state, the growth of the health and education sectors, and the expansion of the public sector in other areas such as housing and transport.

The increase in public sector employment has also been driven by a number of other factors, including the growth of the public sector in other areas such as housing and transport. The growth of the public sector in other areas has been driven by a number of factors, including the expansion of the welfare state, the growth of the health and education sectors, and the expansion of the public sector in other areas such as housing and transport.

The growth of the public sector in other areas has been driven by a number of factors, including the expansion of the welfare state, the growth of the health and education sectors, and the expansion of the public sector in other areas such as housing and transport. The expansion of the welfare state has been driven by a number of factors, including the growth of the health and education sectors, and the expansion of the public sector in other areas such as housing and transport.

The expansion of the public sector in other areas such as housing and transport has been driven by a number of factors, including the growth of the health and education sectors, and the expansion of the public sector in other areas such as housing and transport. The growth of the health and education sectors has been driven by a number of factors, including the expansion of the welfare state, and the expansion of the public sector in other areas such as housing and transport.

The expansion of the welfare state has been driven by a number of factors, including the growth of the health and education sectors, and the expansion of the public sector in other areas such as housing and transport. The growth of the health and education sectors has been driven by a number of factors, including the expansion of the welfare state, and the expansion of the public sector in other areas such as housing and transport.

The growth of the health and education sectors has been driven by a number of factors, including the expansion of the welfare state, and the expansion of the public sector in other areas such as housing and transport.
